

**Advanced Power
Solutions,
Technology
& Expertise**

Extensive Range of Cell Technologies

- Li-Ion Polymer, Li-Ion, Ni-MH, Ni-Cd technologies
- ISO certified facilities
- We provide a solution that meets your expectations

Advanced Power Solutions

World-Wide Assembly & Superior Customer Service

- Global assembly experience
- High volumes within quick response lead-times
- Superior customer service

Advanced Power Solutions

Design Expertise

- Our design team are focused on supporting customer design teams from conception to market introduction
- Solutions designed with leading edge software solutions

Advanced Power Solutions

Application & Development

- Smart electronics & PCB manufacturing support
- Full testing capabilities
- Circuit protection, fuel gauging and advanced component circuitry

Advanced Power Solutions

Advanced Device Testing

- **Sophisticated testing facility**
- **Product evaluation of other manufactures products**
- **Advanced cell forming & screening**

Advanced Power Solutions

Portable Electronics & Appliances

- Intec has many years of experience in building solutions within the portable electronics market sector
- PDA's handheld devices, portable printers, household products like vacuum cleaners, flashlights and cordless toothbrushes

Advanced Power Solutions

After Market Packs

- Manufactured in both U.S.A. and Hong Kong with superb components and state-of-art technologies.
- Our products have proven superior quality and performance in the market place.
- We provide wide range of compatible replacement battery packs to fits most of the notebook computer, camcorder & digital camera models in the market

Advanced Power Solutions

Power Tools

- **Ni-Cd & Ni-MH technologies for professional power drills and cordless devices**
- **Cost effective solutions for DIY level products.**
- **Intec have a proven track record in supplying a superior range of sinter & foam cells into this demanding market sector.**

Advanced Power Solutions

Electric Bicycle

- Intec's Ni-Cd and Ni-MH battery solutions incorporate electronic battery management.
- This leading edge technology will significantly improve the performance in Electric Bikes, Electric Scooters and other mobility products.

Advanced Power Solutions

Emergency Lighting

- Intec is a leading supplier into the Emergency Lighting market with a full range of high temperature products.
- With our short production lead-times and superior customer service, Intec has been the only choice for this demanding market sector.
